◆ AI Overview

By default, Vanilla Visa gift cards do not come pre-loaded with a cardholder name or a set billing ZIP code. To use the card for online purchases without it declining, you should first register the card online to assign your preferred billing information. FlashChange +2

Here is how to set your details and successfully use your card:

1. **Assign your information:** Go to [Vanilla Gift Card Management](#) or the [Vanilla Gift Help](#) portal. Log in using the 16-digit card number, expiration date, and CVV. Look for the "Assign Zip Code" or "Edit Billing Address" option. Vanilla Gift +3
2. **Cardholder Name:** Many users on [Reddit](#) suggest that for the name field during online checkouts, you can simply use your real legal name or enter "Gift Card". Reddit
3. **ZIP Code:** Set this to your current, actual residential address. Once registered, this ZIP code is the one you must input when prompted for a billing address during online checkout. JustAnswer +1
4. **Immediate Purchases:** If you haven't registered the card, many retailers will accept your own home billing address when you check out. Vanilla Gift +1

If you are currently trying to make a purchase, tell me **which website you are buying from** so I can let you know if they have any known issues with prepaid Visa cards.
