Reddit (<https://www.reddit.com/submit?url=https%3A%2F%2Fwww.androidusbdrivers.com%2Fsky-black-usb-drivers%2F>)

SKY Black phone charging but not connecting to PC? SKY Black phone not showing up on PC? Maybe it is because of missing **SKY Black USB drivers** or bad or corrupt drivers. To fix the SKY Black phone won't connect to a computer problem, **download SKY Black USB Driver** and install it on your computer.

Sky USB Drivers (<https://www.androidusbdrivers.com/device/sky/>) are essential to connect SKY Black to a computer or laptop via USB cable. If you're looking for **SKY Black USB Driver** for Windows 11, Windows 10, Windows 7, Windows 8.1, and Windows 8, then you can download them from the downloads section below. On this page, we have shared the **official USB Driver for SKY Black** along with ADB interface drivers and Fastboot drivers.

The **SKY Black Android USB driver** helps connect your phone as an MTP USB device (Media Transfer Protocol) and transfer images, videos, documents, and other files to and from phone to computer or laptop. If you're facing an android file transfer not working issue, it is recommended to **install SKY Black drivers** to fix the problem.

On the other hand, the **SKY Black ADB driver and Fastboot driver** allows you to pass ADB commands and Fastboot commands to perform certain operations on your phone right from your computer.

Download SKY Black USB Driver

The Sky mobile drivers (<https://www.androidusbdrivers.com/device/sky/>) offered here can be used to flash stock firmware, stock recovery, TWRP recovery, CWM Recovery, Unlocking Bootloader, etc. They can also be used for general purposes like transferring media, documents, and other data to and from mobile phone to computer.

How to Install SKY Black USB Drivers Manually

1. Download the **latest_usb_driver_windows.zip** file on your computer and extract it on Desktop.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Google-Android-USB-Driver-extracted.png>)

2. **Open the Device Manager** on your computer by searching **device manager** from Windows Start Menu.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Device-Manager-Windows-Start-Menu-Search.png>)

3. Now click on your **Computer name** in the Device Manager window.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Device-Manager-Computer-Name.png>)

4. Now click on **Action** and then select **Add legacy hardware**.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Device-Manager-Add-legacy-hardware.png>)

5. **Add Hardware Wizard** window should open, click on **Next** to continue.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Add-Hardware-Wizard.png>)

6. Now select **Install the hardware that I manually select from a list (Advanced)** option and click on **Next**.

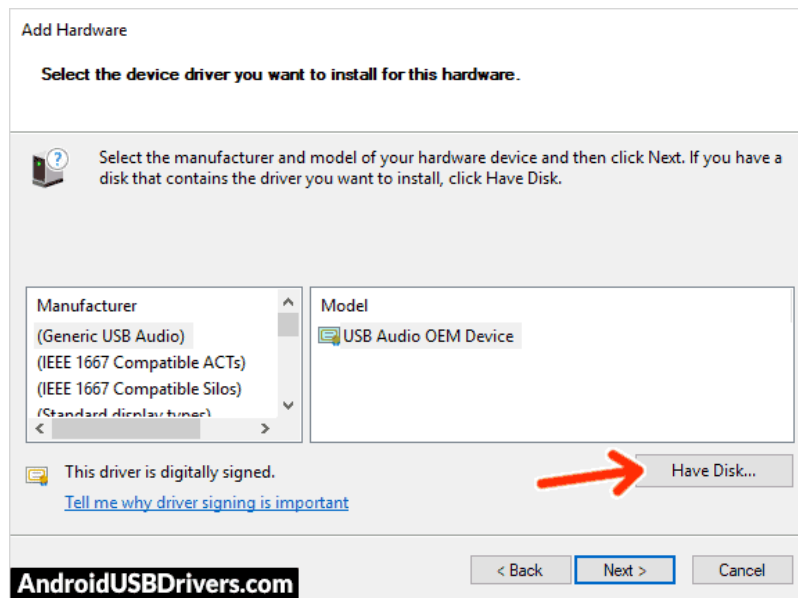

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Install-Hardware-Manually.png>)

7. Select **Show All Devices** from the list and click on **Next**.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Show-all-Hardware-Devices.png>)

8. On the next screen, click on **Have Disk...** to open the **Install From Disk** window.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Add-Hardware-Have-Disk.png>)

9. Click on **Browse...** and navigate to the folder where you have extracted the drivers in **Step #1**.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Install-From-Disk-Browse.png>)

10. Now select **android_winusb.inf** file and click on **Open** and then on **OK**.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Google-Android-USB-Driver-inf.png>)

11. Select the **Android ADB Interface** driver from the list and click on **Next**.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Install-Android-ADB-Interface-Driver.png>)

12. Confirm the Hardware driver to install and click on **Next** to begin the installation process.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Android-ADB-Interface-Driver-Install.png>)

13. Once installed, click on **Finish**.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Android-ADB-Interface-Driver-Installed.png>)

14. Follow **Steps #3 to #13** again and install the **Android Bootloader Interface** driver and **Android Composite ADB Interface** driver.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Install-Android-Bootloader-Interface-Driver.png>)

15. Once all the listed drivers are installed, **restart** your computer.

How to Install SKY Black ADB and Fastboot Drivers

1. Download and extract **15 seconds ADB installer** on your computer.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/15-Seconds-ADB-Installer.png>)

2. Now right click on the **adb driver installer** setup file (**adb-setup.exe**) and click on **Run as administrator**.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/Open-ADB-and-Fastboot-Installer.png>)

3. Now a **command prompt** window with a blue background and white text should open.

(<https://www.androidusbdrivers.com/wp-content/uploads/2021/01/ADB-and-Fastboot-installer.png>)

4. It should ask whether you want to **install ADB and Fastboot?** Press the **Y** key on your keyboard and hit **Enter**.
