EX: (888) 555-0100

What time zone is area code 563?

The 563 area code is located in the Central timezone. The Central time zone is also known as America/Chicago. As of the last time this page was loaded, the current time is 11:20pm.

History

Creation: Area code 563 was put into service on March 25, 2001 and was the 291st area code in service. It was one of 26 area codes introduced in 2001. It was the 5th area code in the state of Iowa. Iowa currently has 5 area codes. It was created to relieve the pressure on the 319 area code (/319) as the numbers in 319 were being exhausted.

7 digit dialing: Before area code overlays were made common in the 1990s, a local phone number could be dialed without dialing the area code - just dialing the last 7 digits of the phone number. Without overlays, it

was clear that a 7 digit number should be routed to the local area code. However, with overlays, multiple area codes can serve a single area which makes the area code for a 7 digit number ambiguous. Of the 480 area codes currently active, area code 563 is one of fewer than 71 that still allow 7 digit dialing for local calls. At minimum, to support 7 digit dialing, an area code must not have an overlay and must not allocate numbers of the form 988-XXXX to avoid ambiguity with the 988 suicide prevention lifeline implemented in 2022-2023.

Mnemonics: Prior to 1995, the middle digit of area codes was restricted to a 0 or 1 which do not correspond to a letter on a phone's dialing pad. So, only area codes created in 1995 or later can have a mnemonic. The mnemonics for area code 563 include JMD, JME, JMF, JND, JNE, JNF, JOD, JOE, JOF, KMD, KME, KMF, KND, KNE, KNF, KOD, KOE, KOF, LMD, LME, LMF, LND, LNE, LNF, LOD, LOE, and LOF. [Let us know \(/contact_us.htm\)](#) if one of these mnemonics fits area code 563 so we can feature it.
