HydraNFC v2: Real-Time NFC Sniffing & Cracking Powerhouse Video by Penthertz

- https://www.youtube.com/watch?v=2Cf_BwMrgbk
- Watch as we demonstrate HydraNFC v2's impressive real-time NFC sniffing capabilities for efficient cracking and analysis!
- VS. Competition: See how it stacks up against Proxmark3 and Flipper Zero! While those tools are great, HydraNFC v2 takes you deeper into low-level operations for superior decoding AND lets you interact with both tags and readers.
- This video just scratches the surface of what's possible! We showcase the killer feature that makes HydraNFC v2 more efficient than any competing tool in its price range.
- Perfect for security researchers, hobbyists, and professionals looking for affordable yet powerful NFC hacking capabilities.
- Penthertz website <https://penthertz.com>

New HydraBus v1.0 Rev1.5 + HydraNFC Shield v2

R1.5 Now In Stock!

We are excited to announce that after a long wait, primarily due to the global chip shortage, the new kit **HydraBus v1.0 Rev1.5 + HydraNFC Shield v2 R1.5** are now in stock!

These updated versions come with enhanced features and improvements, ensuring better performance and reliability for your projects.

Key Highlights:

- **HydraBus v1.0 Rev1.5:** Improved design (with USB-C) for better functionality and ease of use.
- **HydraNFC Shield v2 R1.5:** Enhanced Tuning and performance with the latest standards in NFC technology.

Thank you for your patience and continued support. Get your hands on the latest versions today and take your projects to the next level!
