

Push blocked because a secret was detected

⚠ An error occurred when allowing your secret. Please try again.

⚠ [Secret scanning](#) found a **GitHub Personal Access Token** secret in your attempted push.

Allowing this secret risks exposure. Instead, consider [removing the secret from your commit and commit history](#).

Exposing this secret can allow someone to:

- Verify the identity of this **GitHub Personal Access Token** secret
- Know which resources this secret can access
- Act on behalf of the secret's owner

Push protection is enabled for your account. To disable, visit your [code security settings](#).
