✓ Requested Permissions (14)

view network connections

Allows the app to view information about network connections such as which networks exist and are connected.

android.permission.ACCESS_NETWORK_STATE

have full network access

Allows the app to create network sockets and use custom network protocols. The browser and other applications provide means to send data to the internet, so this permission is not required to send data to the internet.

android.permission.INTERNET

modify or delete the contents of your shared storage

Allows the app to write the contents of your shared storage.

android.permission.WRITE_EXTERNAL_STORAGE

read your contacts

Allows the app to read data about your contacts stored on your tablet. Apps will also have access to the accounts on your tablet that have created contacts. This may include accounts created by apps you have installed. This permission allows apps to save your contact data, and malicious apps may share contact data without your knowledge.
