2. ANY.RUN Sandbox

- **Type:** Freemium, online
- **Features:** Interactive sandbox for static and dynamic analysis, real-time threat intelligence, API access, and integration with security tools.
- **Best for:** Security researchers and SOC teams needing interactive analysis and scalability [G2](#) +1 .

3. Hybrid-Analysis.com

- **Type:** Freemium, online
- **Features:** Free malware analysis service powered by CrowdStrike, supports in-depth behavior analysis of files.
- **Best for:** Lightweight, no-install malware analysis with detailed reports

AlternativeTo .

4. Cuckoo Sandbox

- **Type:** Free, open source
- **Features:** Open-source malware analysis framework with dynamic and static analysis, supports multiple OS platforms.
- **Best for:** Developers and security teams who want full control and customization [AlternativeTo](#) +1 .

5. CAPE Sandbox

- **Type:** Free, open source
- **Features:** Open-source malware sandbox forked from Cuckoo, enhanced config extraction and payload dumping.
- **Best for:** Advanced analysis with more detailed runtime data [ethicalhacking.ai](#) .

6. YARA Rules Engine

- **Type:** Free, open source
- **Features:** Pattern matching for malware detection, supports creating and testing YARA rules.
- **Best for:** Automated malware classification and detection in large datasets [ethicalhacking.ai](#) .

7. Radare2 Framework
