Copy of message to Kevin Mitnick Security about OpenWall correspondence

From Maxie Schmidt <Maxieds-hackercat@outlook.com>**Date** Fri 3/3/2023 8:58 PM**To** Maxie Schmidt <Maxieds-hackercat@outlook.com>

I need to get in contact with Kevin about OpenWall. I wasn't kidding when I talked about making him a witness for the prosecution. I want to talk to him to keep a contact point about all this and ask some questions about what he went through appealing his case to the Supreme Court from Highlands. I want recourse for what I had to go through and the murders of my immediate family. We need to kill these assholes this decade around.

The next two links are relevant. The YouTube video shows the modified Subaru/Tesla car navigation functionality I had to put up with south of the border. I stopped breathing in Casper WY after being gassed alive in that car for days with my cat, Kush. It includes an obscure reference to Solar's participation in all this Nazi America bullshit in the OSS licenses. Never (ever) again (cf. the Apples to Apples card game sets and the more modern Evil Apples games for SMART phones and/or ROKU television sets)!!! Some known assholes from UIUC are very much responsible for a lot of recent violence (e.g., the DC capitol riots at Biden's inauguration), Jason's murder over fifteen years ago, and of course trying to torture and kill me amid insulting requirements for classes and middle-school-esque gym sessions after I finally completed my doctorate last summer.

NB, Solar tried to murder me after posting the video near Jenny's Market as a US (not USA) federal employee on Federal Boulevard in Denver CO near Yellowstone. He was one of the last fascist pigs I saw before surviving a tunnel system ER where I was strapped down and forced to receive an intravenous clear lethal injection. The penalty for *being alive* after three days on a gurney there was the famous Highlands federal prison. In the prison, I was scheduled an online court date with a Hitler like judge named Todd (pronounced 'Toe') who gave me a 90-day maximum 'short term murder' death sentence to be subjected to toxic court ordered medications (injections) and the usual sonar and nuclear holocaust type radiation exposure units we all remember from Sonic the Hedgehog II on the SEGA Genesis console. My attorney would not let me appeal because of the enormous amount of time it would take and arranged me to take a compromise over the court ordered regimens. I think Sean Penn, longtime friends and Jason / Lucky's family had a lot to do with me getting back to Florida. It turns out that my court ordered release date coincided with the local airport's new mandate that RealID compatible identification were required to fly from that location. Thus, without the help and push out the door with an early prison release, I would have been stuck in the South American tunnel systems there for certain death. I am nonetheless still generally very unhappy. Is this to be expected? For how long?

Please ask your security professionals to keep a lookout for my call. This is well worth your attention this time! I would also appreciate it if any follow up email correspondence is CC'ed to the following address that I check more frequently: maxieds-hackercat@outlook.com.

Thanks very much.

Sincerely,

Dr. Maxie Dion Schmidt
