Free File Manager is the best Android file explorer with powerful features: speed up your phone, search the files accurately, and grasp file dynamics easily to organize internal storage. Accelerate your device by strong cleaning function. Our File Browser is a free, secure app that protect your privacy.

Experience and enjoy these features Android File Manager offers:

Free up Space Maximally

- **Space Analyzer:** If your Android phone has insufficient free space, you will want to know exactly what file occupies all the space. Now you require a free file explorer. Scan your internal storage and graphically show you how much space each type of file occupies.
- **Junk Cleaner:** Do you feel that your Android phone is running much slower than it should be? You need clean your phone to make it run quicker in a flash. Remove junk and cache file from chats apps, clean duplicate files immediately.

No ads, dark mode,
and more with
 [APKMirror Premium](#)
[\\$10/quarter](#)

• **Boost Mobile:** Optimize memory and speed up phone by freeing up space. Faster and more professional than other file viewer. Automatically increase the speed of your phone by 30%+ when it finished. File Browser is your effective assistant.

Fast and High-efficient Ensured

- **Strong Search Engine:** 1 second to find your files! File Manager has a strong search engine, you can easily locate them. And all recent files are stored in one place so you can easily to grasp file dynamics.
- **Smart File Browsing:** The best File Explorer can help you organize images, documents, music, videos files, important apps, and even archives file. Auto-group related files and folders by smart classify base on their types and characteristics. Also, you can handle all your files such as copy, cut, paste, delete, rename, encrypt, etc.
- **Share Files Timely:** Back from the tour? Discover something new? Batch selected your files, then share with your friends, family via Facebook, Twitter, Snapchat or just Email. If the picture you like it very much, you can print it out.
- **Handy Toolbox Provide:** File Viewer provides you a super intimate widgets in notification bar that you can turn on instantly even when you're locked phone. Such as camera, flashlight, weather and so on.

Improved High-level of Security

- **Lock Files & Apps:** Move your personal files to private place. File Explorer ensure 100% guaranteed for your privacy by password lock screen & pattern lock screen. Even support fingerprint encryption. Encrypt your files and information, view them without any prying eyes.

Maybe you will encounter the following problems during using **Android File Manager**.

- How can I save audio messages from WhatsApp on Android?
- First, find and tap the audios you want to save in WhatsApp dialog, download it. Second, open File Manager click "Audios" folder, or directly browse to the /WhatsApp/Media/location.
- If you find the location of your audios, it will be much convenience to transfer to computer via USB.
- How to hide files in my Android phone?
- If your phone is below Android 7.0, it will be displayed "Safe box", create password then put the apps or files you want hide in it. You need to enter your password each time when you open it. If your phone is Android 7.0 or higher, it will be displayed "Private", you must select password or pattern lock in Setting – Security – Private mode. Then you can hide your secret.

In one word, this Free File Explorer is the best Android File Manager with no ads! Multi-functional, efficient and safe File Commander on Android in Google Play.

Any question or suggestion, please contact us in the following way! Download best File Manager apk and share with your friends!
