 tools-catalog.md	docs: Update formats supported by x...	last month
 upgrading-from-v2.md	docs: update upgrading-from-v2	4 years ago

README

This [GitHub repository](#) is the content of the site <https://authors.ietf.org> Changes can be proposed here via pull requests. Please note the following guidance for submitters:

- Synchronisation and change control:
 - Synchronisation between this repository and the site is bi-directional and triggered every 5 minutes.
 - Until the site goes live, regular edits will be made in the wiki system that will then be pushed to this repository.
- Content conventions:
 - Internet-Drafts are referred to as 'Internet-Drafts' or 'I-Ds', never 'drafts'
 - Internal page links use the full title of the page, not any other text.
 - Headings always start at H1 and then to H2 then H3 and so on.
 - The content is largely in the second person - written as if talking to the authors of I-Ds.
 - Pages are kept on topic, duplication is minimised and appropriate links added
- Markdown dialect:
 - The pages all have a header table automatically generated by wiki.js. This should be ignored when editing.
 - Wiki.js uses the `{.tabset}` construct which is not recognised by GitHub Flavoured Markdown and so will not render correctly in GitHub previews.
