 AI Overview

To save a webpage to the [Wayback Machine](#), go to the [Save Page Now](#) portal, paste the URL into the form, and click **Save Page**. You can also use the official [Wayback Machine Chrome Extension](#) for one-click archiving while browsing.  Internet Archive +1

The simplest methods to capture and preserve live pages include:

- **Web Form:** Navigate to Save Page Now, enter the exact URL of the specific page you want to archive, and click the "Save Page" button.  Internet Archive Blogs +1
- **Browser Extension:** Install the Wayback Machine Chrome Extension. Once installed, simply click the extension icon in your toolbar and select "Save Page Now".  Internet Archive
- **Bookmarklet:** Drag a quick-save JavaScript bookmarklet to your browser's bookmark bar to instantly capture whatever page you are currently reading.  Internet Archive Blogs
- **Archiving Outlinks:** If you log in with a free [Internet Archive](#) account, you can use the "Save Outlinks" feature, which captures the main page and all of its outbound links simultaneously.  YouTube · CHOICE Media Channel

Note: The Wayback Machine can only archive pages that allow public web crawlers. If a site's security settings or robots.txt file blocks web archiving, you will receive an error.  Internet Archive Blogs +1

If you are preserving research or need to make sure your captures are permanently secured, tell me—are you looking to archive **a single URL** or automate archiving for **multiple pages at once**?
