worked as a Research Scientist at [EECS @ UC Berkeley](#) and the [International Computer Science Institute \(ICSI\)](#) in Berkeley, California. [↗](#)

His research primarily focuses on network security, measuring the economics of cybercrime, and understanding large-scale attacks.

Key Contributions & Publications

Dr. Grier has made significant contributions to the cybersecurity community, frequently publishing his work in the [ACM Digital Library](#) and presenting at major conferences.

- **Cybercrime Economics:** He conducted extensive research into the spam value chain, analyzing how underground economies and click trajectories function, such as those presented at the [ACM CCS 2014](#) conference.
- **Account Hijacking:** He co-authored highly cited studies analyzing large-scale criminal account hijacking on major platforms (like Twitter), evaluating how such contagions spread and how they impact victims. [↗](#)

Professional Background

- **Academia:** He received his doctorate in Electrical and Computer Engineering in 2009. Alumni: Chris Grier - ICSI, Berkeley and held research positions at UC Berkeley and ICSI. Chris Grier - [imchris.org](#). [↗](#)
- **Industry:** Dr. Grier transitioned to the tech industry and became a software engineer at Google, where he leads engineering teams. [Editorial Board - ACM Queue](#).
- **Publications:** You can view his full portfolio of research and citations on [Chris Grier - Google Scholar](#) and learn more about his background on Chris Grier - [imchris.org](#).

Would you like to know more about his specific research papers on cybercrime economics, or are you looking for his work related to a specific ACM conference?
