◆ AI Overview

While there is no single event that perfectly ties together all those exact phrases, your query touches on three notable, real-world events involving Taylor Swift, the Navy destroyer USS John S. McCain (DDG-56), and a somewhat related incident from 2024. [↗](#)

Here is the breakdown of the USS John S. McCain and how each element might relate to the U.S. Navy and Taylor Swift:

The commanding officer of the USS John McCain, Cmdr. Cameron Yaste, was relieved of duty in August 2024. He was removed from his post due to a loss of confidence in his ability to command. The U.S. Navy Band Taylor Swift Parody

The U.S. Navy Band gained viral attention in 2021 when they released a sea shanty parody of Taylor Swift's hit song "We Are Never Ever Ever Getting Back Together". The performance featured sailors in pirate and parrot costumes singing and flapping their arms. [P](#) People.com

Taylor Swift and the McCain Family

While the U.S. Navy and Taylor Swift connect on musical things like the shanty, Swift also has a history with Meghan McCain, the daughter of the late Senator John McCain (who the USS John McCain is primarily named after). Meghan McCain famously helped facilitate a meeting between Taylor Swift and a fan battling glioblastoma in 2018. However, in 2024, Meghan McCain also publicly expressed the opinion that Taylor Swift had received "too much" media coverage, and that she had "no place else to go but down" in the news cycle.
