YouTube to MP3 Converter

Convert YouTube videos to MP3 audio files without annoying ads or registration. With **MP3Cow**, you have one of the fastest and ad-free YouTube to MP3 converters on the entire web. The average conversion takes around 20-25 seconds. During peak loads like weekends or on holidays, the conversion may take a few moments longer. The maximum video length is 90 minutes. We've added this limit so we can offer all users the best possible performance. Whether you want to download podcasts, music videos, or audiobooks, MP3Cow offers you top audio quality. Simply copy the URL, convert, and download. That's it.

You can use our online converter on all common devices, such as smartphones, computers, and tablets. The design adapts to your device. All you need is internet access and a browser or the YouTube mobile app.

How to convert YouTube to MP3

With this short guide, you shouldn't have any problems downloading music. If you do, just contact us via our [contact](#) page.

1. Search for a video: Go to YouTube or use the YouTube app. Search for any video and copy the video URL. The maximum length should not extend 90 minutes.

2. Paste the YT Video url into MP3Cow: After copying the URL, go to MP3Cow and paste the URL into the field above, then click Convert. The conversion process will start immediately. Just wait until the process is complete.

3. Download your file: When the conversion was successful, the **Download MP3** button will appear. Just save the file to your device - it will be located at your browser downloads folder.

We would appreciate a small donation if you like our service. We don't use advertising, and MP3Cow must be financed somehow. The donation button, which appears below the download button, will take you to our donation page. Thank you for your trust.
