

Flutter

flutter.dev (<https://flutter.dev/>)

Build for any screen

Flutter is an open source framework for building beautiful, natively compiled, multi-platform applications from a single codebase.

For more details about the Flutter value proposition, see the [Flutter website](https://flutter.dev/multi-platform). (<https://flutter.dev/multi-platform>)

How Google uses Flutter

Flutter powers many Google apps, including Google Pay, Google Earth, Google Ads, Google Classroom, Google Cloud, YouTube Create, and more.

For more details see the [Flutter Showcase](https://flutter.dev/showcase/) (<https://flutter.dev/showcase/>).
