

## Commit 0f6846e

maxieds committed last week

Archiving saved versions of ARPANet hacks from over two months ago - Github and MS tools (among everything else) are broken for a while - The Administration LLC / he has lost his damn mind in Hyde Park this year - II (after convenient for Administration/ARPANet LLC to block new unstated Github rules about 2.0GiB - note spelling of units - max push sizes - how convenient - nice to know now with the 25th anniversary of Porche 911, 2001 happening tomorrow)
