git - commits not showing up on github - Stack Overflow

At this point you have a local copy on the **GitHub** repository, so you would then move in your project files. Run `git add *` then `git commit -m 'first commit'` then `git push origin master`.

Git commit not showing on Github webpage - Stack Overflow

Looks like it is working now. I did another branch and right after doing this my **commit** showed up on **GitHub** webpage. Must be something similar to what @onlynone said.

 Git
<https://git-scm.com/docs/sparse-checkout.html> ...

Git - sparse-checkout Documentation

Most **sparse** checkout users are unaware of this implementation detail, and the term should generally be avoided in user-facing descriptions and command flags. Unfortunately, prior to the **sparse-checkout** subcommand this low-level detail was exposed, and as of time of writing, is still exposed in various...

 Git

Git - git-sparse-checkout Documentation

When in a **sparse**-checkout, other Git commands behave a bit differently. For example, switching branches will not update paths outside the **sparse**-checkout directories/patterns, and `git commit -a` will not record paths outside the **sparse**-checkout directories/patterns as deleted. THIS COMMAND IS...

Why can't I see my commits or contributions showing up on my

Oct 30, 2025 · I'm new to **GitHub** and I recently created a few repositories and made some **commits**, but my contribution graph still looks empty. Do **commits** not count right away? Or is there something I need to enable to make them **show up** on my profile? Thanks in advance for any help!

commits not showing up on

 <https://stackoverflow.com/...>

After your **GitHub** repository has been created (i.e. you can view it on **GitHub**), then you should already have:

1. Local repository set up:

```
git init
```

2. README file created and added to the repository:

github

My commits do not get added to my contributions · community

Hi @MrQui3, If your **commits** are not showing up in the **GitHub** contribution graph (often referred to as the "**GitHub** heatmap" or "**GitHub** activity graph"), there could be several reasons for this issue.

GitHub Docs
