Create ChromeOS Flex Bootable USB on Windows 10/11 (Official)

Jul 2, 2026 · Google's official way to create a bootable ChromeOS Flex USB on Windows 11 or Windows 10 is to use the Chromebook Recovery Utility in Chrome, select Google ChromeOS Flex, choose an 8GB-or-larger USB drive, and let the tool download and write the installer. That is the simplest path because...
